🌐 Portfolio

OBJECTIVE

Motivated Computer and Information Technology student specialized in Networking. Skilled in DHCP, OSPF, VLANs, ACLs, and experienced with tools like Packet Tracer, GNS3, and VMware. Studied CCNA, CCNP Enterprise, and MCSA: Windows Server 2016. Eager to contribute to innovative IT teams and grow in Networking and Cybersecurity fields

EXPERIENCE

- **ITC College - Digital Egypt Pioneers Initiative (DEPI)**   **Apr 2024- Oct 2024**
  Network Administrator Intern

    - Supported and managed network infrastructure during the internship, focusing on network troubleshooting and maintenance.

    - Gained hands-on experience with configuring and managing network devices, contributing to real-world networking projects.

- **Network Administrator**   **Jul 2023- Sep 2024**
  Scal Academy

    - Implemented and configured network solutions during training.

    - Enhanced understanding of advanced networking concepts, including routing, switching, and security.

EDUCATION

➢ **Bachelor's Degree in Computers and Information Technology (Tanta University)**

  - IT Department   Sep 2022 – Jun 2025

Project: Design a Network Connecting two Branches of a company (CCNA , CCNP ,MCSA)

COURSES

- **CCNA Routing and switching at Scal Academy**   **Jul 2023 - Sep 2024**
- **CCNP Enterprise at Scal Academy**   **Jul 2023 - Sep 2024**
- **MCSA Windows Server 2016 at Scal Academy**   **Issued Jan 2025**
- **Information Technology Institute (ITI)**   **Jul 2023 – Aug 2023**
  - Basic Cybersecurity
- **UCCD (University Center for Career Development)**   **Aug 2024 – Sep 2024**
  - Business English (Pre-Intermediate Level)
- **E-Bridge Academy**   **Apr 2023- Oct 2023**
  - English (Intermediate Level)

SKILLS

- Networking Protocols : Proficient in TCP/IP, OSPF, EIGRP, BGP, VLANs, VTP, STP, and NTP
- Routing and Switching: Configuring and managing Cisco routers and switches Implementing and troubleshooting routing protocols Layer 2 and Layer 3 switching concepts
- Configuring IPv4 and IPv6 addressing, VLANs, and inter-VLAN routing.
- Configuring devices for access to local and remote resources.
- Network Security: ACLs (Access Control Lists) ,and VPNs (Virtual Private Networks)
- Network Design and Implementation: Designing network topologies Implementing network infrastructure Network redundancy and high availability (HSRP, VRRP)
- Wireless Networking: Basics of wireless LANs Configuring and troubleshooting wireless access points
- Network Troubleshooting (Ping, Traceroute, Telnet/SSH)
- Virtualization & Cloud: VMware, Hyper-V, GNS3, Microsoft Azure (Basic)
- System Administration: Windows Server 2016, Active Directory, Group Policy

SOFT SKILLS

- Communication
- Teamwork
- Time Management
- Problem-Solving
- Technical Documentation
- Microsoft Office

LANGUAGES

- Arabic: Native language
- English: Second language
